ACADEMIC QUALIFICATIONS

Jorhat Engineering College

OCT 2020 - MAY 2024

Bachelors of Technology in Computer Science and Engineering (84.8%)

Dr Radhakrishnan HS School

JUNE 2017 - MAR 2019

Senior secondary, AHSEC (81%)

SKILLS & ABILITIES

- **Programming Languages :**

C,C++,JavaScript(ES6),Python

- **Framework/Library :**

React,Express,Redux,NextJs,SpringBoot,Node.js,TailwindCss,

- **Database Management System**

MySQL,MongoDB,PostgreSQL

- **Object oriented programming**

- **DBMS**

- **Problem solving**

- **Other tools**

Rest API's,Git,GitHub,Postman,AWS

WORK HISTORY

Automovill Technologies Pvt Ltd | Full Stack Developer

Bengaluru, Karnataka | Jul 2023 – Sept 2023

Developed a full-stack Android application leveraging React Native for the front-end, Spring Boot for the back-end, and MySQL for the database, reducing manual tasks by 40% and increasing service efficiency by 30%.

Assam Power Distribution Company Ltd | Full Stack Developer

Jorhat, Assam | Jul 2023 – Aug 2023

Worked on an innovative communication platform to optimize interactions between APDCL customers and authorities. Leveraging React.js for the frontend, Node.js for the backend, and MongoDB for data storage, we introduced a two-way communication system, increasing customer satisfaction by 65% and enhancing operational efficiency. Engineered a robust system for seamless engagement and effective management.

Jorhat Engineering College | NLP Research Intern

Jorhat, Assam | Aug 2022 - Sept 2022

Conducted research in the field of Natural Language Processing (NLP) with a focus on the application of NLP techniques to regional languages.

PROJECTS

Chat Applications | Full Stack

- Designed and developed the MySQL database schema.
- Developed RESTful APIs using Spring Boot and MVC architecture, enabling seamless CRUD operations and enhancing overall system performance.
- Engineered and executed the user interface of the web application leveraging ReactJS, prioritizing user experience, responsiveness, and seamless interaction

IdeaGarage | Full Stack

- Developed integrated backend and frontend solution using Next.js.
- Designed scalable MongoDB database schema.
- Implemented OAuth technology for secure user authentication.
- Created personalized profile sections with full CRUD operations.

Car Rental Website | Frontend

- Created a fully responsive and user-friendly car rental website.
- Enabled effortless car booking from a list of available options.
- Implemented an intuitive interface for specifying rental periods with start and end dates and times.
